I would love to hear whether Oregon found any trends or common issues during the reviews and if so, a description of those trends or issues.

Attached is DEQ's guidance for reviewing AWQMAPs. Koto will be discussing this with us on the 16th during the Ag CZARA tech team. If we have questions for Koto regarding DEQ's involvement in this process, please let me know and I will make sure she gets them before the meeting. Give me a call if you have any questions.

Subject: Biennial Review guidance

Alan

Good morning.

I am sending you a copy of the latest draft biennial review guidance document. This document has been drafted in order to facilitate the basin coordinators to provide comments to ODA during biennial reviews in a consistent manner.

Do you and others have any specific requests for me for the call next week? If there are specific questions that you'd like me to answer, please feel free to provide them to me ahead of time.

Thank you, and have a good weekend.
Koto
